Technologies: HTML,CSS,Blogger,Wordpress.

EDUCATION

Bachelor of Engineering - Computer Engineering KC College of Engineering

June 2017 - Oct 2020 Thane, India

Diploma - Computer Engineering

Vidyalankar Polytechnic

June 2017 - July 2020 Mumbai, India

SSC - Don Bosco High School

up-to 2013 Mumbai, India

ABOUT

Engineer with Experience in Multiple Technologies,Worked for Startups as well as Big Organisations.

PROJECTS

Smart Augmented Reality Glasses

- This System Displays Map Directions and Whatsapp/Message Notifications on the Specs.

Technologies: Arduino C,Tasker.

Log Date Range Printer

- Binary Search Based Date Range Log Printer Script.
- Accepts Log File,Start Date,End Date.
- Returns All entries in Log File from first Occurrence of Start Date to Last Occurrence of End Date.
- Date Searches are performed using Binary Search.

Technologies: Java,Git.

Store Management Project

- Dashboards for Admin,Manufacturer and Dealer
- Data Managed through asp.net Web API
- Project has features security features like Login Authentication and Data Validations for consistent data

Technologies: React.JS,asp.net Web API ,SQL

SKILLS

Certified - C, Python

Interned - Java

Well Acquainted HTML,CSS,JS,C Sharp

Libraries/frameworks -

Pandas,Selenium,.net,React.JS

Data Structures , Algorithms ,Good Coding Practices

Utilities- Version Control :-Git

ACHIEVEMENTS

Winner- GD - Detroit 2017

Runner Up- Debate - Detroit 2018

Winner- App Dev - Khoj 2015

Runner Up- Web Master - Detroit 2018

KrashCode 2019 - CodeChef

VIT-Mun(2018) - Vidyalankar.

Paper on Big Data Model @ Vidyalankar

Paper on Block Chain Tractor Model ,

Augmented Reality Glass @ KC College
